

# 2021 VKFF ACTIVATION WEEKEND

**Saturday 27<sup>th</sup> & Sunday 28<sup>th</sup> November 2021**

**Total number of Activators – 67**

**Total number of parks – 126**

**Total QSOs – 4,652**

**Total Park to Park contacts – 2,032**

## **Summary of the 2021 weekend.**

The VKFF Activation Weekend is held annually in late November/early December. It was initiated in 2015 and is designed to promote the World Wide Flora Fauna (WWFF) program in Australia. The weekend is not a contest, but a fun weekend where park activators head out into the field to activate parks all across Australia.

This year a record number of park activators took part in the event – 67 amateurs. This was the largest number of activators since the inaugural event in 2015, when 51 activators headed out into the field. By comparison 42 activators took part in 2020, 38 in 2019, 33 in 2016, 46 in 2017, and 43 in 2016.

This year also saw a record number of parks activated – a total of 126. By comparison, 2020 saw 62 parks activated, and 75 parks in 2019.

Despite the rather challenging band conditions at times, a record number of QSOs were also made this year – 4,652.

A record number of Park to Park contacts were also made – 2,032.

Thank you to everyone who took part, both Activators and Hunters.

More information on the various VKFF Activation Weekends can be found on the WWFF Australia website at.....

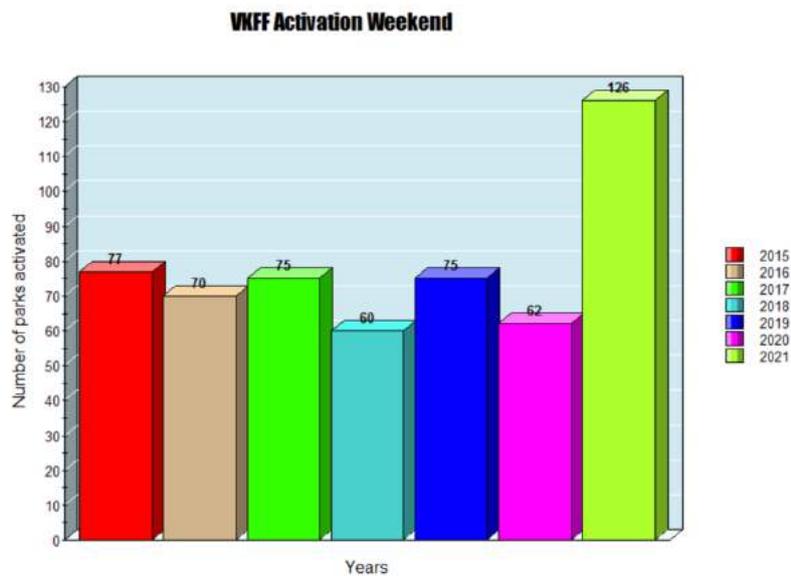

<https://www.wwffaustralia.com/vkff-activation-weekend.html>
