

1

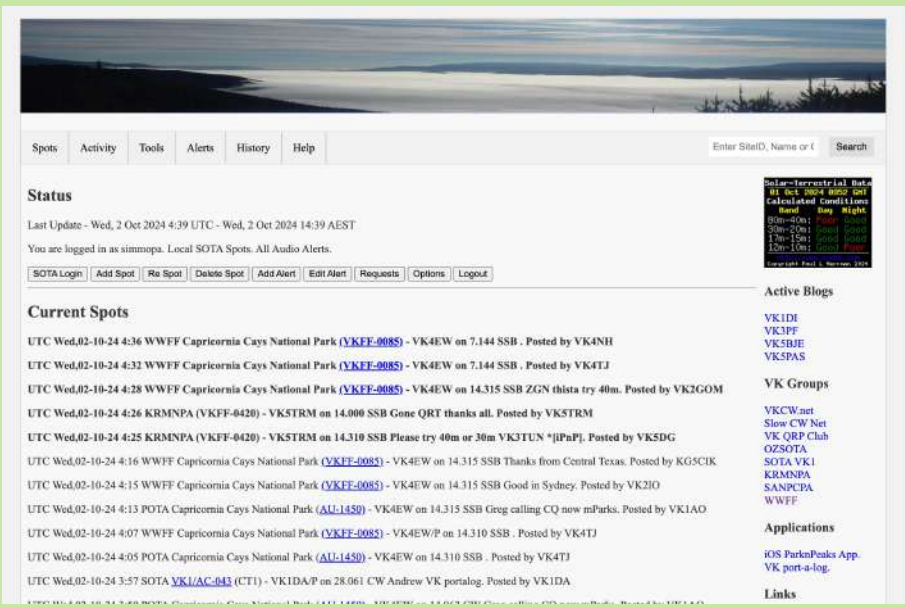

What is parksnparks?

- It is a site for posting amateur radio portable activity

<https://parksnparks.org/>

- Created by Allen VK3ARH

2

The screenshot shows the 'Current Spots' section of the parksnparks website. It features a list of spots with details such as time, location, frequency, and the user who posted them. A sidebar on the right contains sections for 'Active Blogs', 'VK Groups', 'Applications', and 'Links'. At the top right, there is a 'Solar-Terrestrial Data' table with columns for 'Band', 'Day', and 'Night', and rows for '30m-70m', '30m-200m', '12m-15m', and '12m-106m'. The table contains colored indicators for each band and day/night period.

What is parksnparks?

- parksnparks is NOT part of the WWFF, SOTA programs, etc.
- it is a stand-alone webpage run by Allen, with info provided to Allen by the VKFF Team
- easy and free to register a new user account
 - click on the Register new account button
 - then fill in the details on the User Registration page

4

What activity can be posted?

- VK WWFF
- VK SOTA
- KRMNPA
- SANPCPA
- QRP
- VK Shires
- Silos on the Air
- Jamboree on the Air
- Beaches on the Air
- ZL WWFF
- ZL SOTA
- ZL on the Air
- POTA
- HEMA
- IOTA
- ILLW
- DX Cluster

5

Spots

- assists portable activators in maximizing the number of contacts they make
- it is a win win for everyone when you take the time to spot an activator
- activators may be in locations without any phone or internet coverage – so spots assist the activator
- spots will bring their activation to the attention of Hunters

6

How to add a spot

- select Class of Activation
 - VK WWFF
- select Region/Association
 - the State/Territory the activator is in
- fill in the spot form
 - Activating Callsign
 - The relevant park
 - Mode
 - Frequency
 - Comments (optional)
- Click 'Process'

7

What happens when I place a spot?

- The spot will appear on the parksnparks website
- Kookaburra will sound if you have spotted someone in a park
