

## ACTIVATOR LOG

- Logs are THE key for all amateur radio activity
  - No Awards without logs!
- For WWFF, only Activator log needed
  - Simplifies the task for Hunters
- Choose how you prefer to log
  - Pen & Paper
    - BUT you will need to transform to electronic format
  - Phone or tablet

  - Computer?

## LOG FORMATS

- Logs MUST be submitted in ADIF or CSV format
  - ADIF probably easiest

# ADIF MASTER

## ADIF Master

ADIF Master is a highly user-configurable Windows application for working with HAM radio logbooks in ADIF format. ADIF is a generally accepted format for transferring logs between different Logging programs. ADIF Master allows converting any existing Cabrillo, ADX, TR, and CT logs or a part of it into an ADIF file. Also, you can use ADIF Master to open and modify existing ADIF logs using customizable filters, add, remove and modify ADIF tags and entries.
