

WWFF LOGSEARCH

Activators are encouraged to forward their logs to the respective National WWFF co-ordinators, for upload to the WWFF LogSearch facility (the WWFF database).

Here, both activators and hunters can keep up to date with their progress & apply for awards on-line.

WORLD WIDE FLORA & FAUNA IN AMATEUR RADIO (WWFF)

Promoting portable amateur radio operation from designated nature parks and protected nature areas all around the world.

WWFF

An international program.

WWFF is an international program, promoting portable operation from designated nature parks and protected nature areas all around the world.

The WWFF program wants to draw attention to the importance of protecting nature, flora & fauna, whilst giving the ham radio community an interesting activity. There are 45 participating countries in the WWFF program.

WWFF

In Australia.

The Australian (VKFF) program commenced in March, 2013.

In Australia, qualifying parks include National Parks, Conservation Parks, Nature Reserves, and various other parks.

There are over 1,000 qualifying parks located in all of the Australian States & Territories to choose to activate from.

Each qualifying Australian Park is issued with a unique VKFF reference number, e.g. VKFF-0010. A full list can be found in the WWFF Directory or on the WWFF Australia website.

WWFF

Awards

WWFF features a global award program for all hunters and activators of WWFF references.

Many of the participating national programs in WWFF also maintain various national award programs for hunters and activators (this includes Australia).
