WORLD WIDE FLORA FAUNA IN AMATEUR RADIO (WWFF)

PROMOTING PORTABLE AMATEUR RADIO
OPERATION FROM DESIGNATED NATURE PARKS &
PROTECTED NATURE AREAS ALL AROUND THE
WORLD

WWFF

drawing attention to the importance of protecting nature, flora and fauna, and to encourage the development of radio skills, especially in portable operations

The WWFF program encourages amateur radio operators to operate portable from designated parks and/or protected nature areas around the world, and in turn generate attention for these areas, whilst providing the amateur radio community an interesting and rewarding activity.

The Australian (VKFF) program commenced in March 2013.

Qualifying reference areas in Australia include National Parks, Conservation Parks, Nature Reserves, Marine Parks and various other parks.

Each qualifying Australian park is issued with a unique VKFF reference number, e.g. VKFF-0010.

A full list can be found in the WWFF Directory or on the WWFF Australia website.

WWFF is a great way to escape the noise floor at home and enjoy the great outdoors.

Why not combine an activation with a picnic with the family, a 4WD adventure, or just a relaxing afternoon in a park.

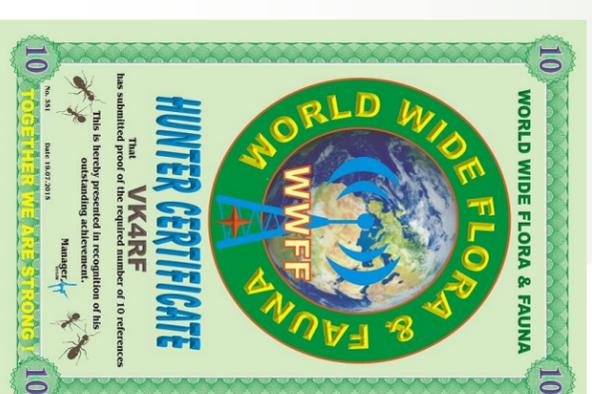

Awards,
Special events,
and lots of fun.

Global Award program VKFF Award program

WWFF features a global award program for all park activators and hunters of WWFF references.

Activation Weekends

Each year, a special VKFF Activation Weekend is held, where activators from all across Australia head out into the field.

Other events

Other events in Australia include the VKFF Team Championship and the VKFF Photographic Competition
